

# SC-DX-EC6

## 6 1/2" In-Ceiling Speakers

### **STAGE E SERIES**

*Enjoy a pleasant atmosphere throughout the home with natural ambient sound.*

#### **Silky Smooth**

Featuring a 6 1/2" polypropylene cone woofer, and 1/2" silk tweeter, the DX-EC6 In-Ceiling Speakers are ideal for ambient music applications where reliable and consistent performance is desired.

# SC-DX-EC6

## 6½” In-Ceiling Speakers (PAIR)

### Features

- **6 1/2” Polypropylene Woofer**  
Low Crossover points and a poly woofer that’s mounted as close to the surface as possible delivers reliable and consistent performance.
- **1/2” Silk Dome Tweeter**  
Silk dome tweeter reduces the severity of break-up modes resulting in smooth highs which are pleasing to the ear.
- **Low Profile Grill**  
A thin-bezel magnetic grille ensures a secure fit, pleasing aesthetic—and with a one-step paint process, blends discreetly into any decor.
- **Easy-Grip Tweeter Bridge**  
Installing speakers above your head requires a sturdy grip point and the SpeakerCraft Tweeter bridge ensures you have one. We even protect the tweeter from accidental finger pokes.
- **Precision Tooled Diffusion Baffle**  
Scattered concavities reduce reflection and disperse the sound evenly for a natural room filling experience.
- **Secure Connection**  
All SpeakerCraft speakers feature spring loaded binding posts that provide a secure, worry-free connection in the wall or ceiling.
- **Timbre and Performance Matched**  
Expect consistent dynamic and detailed sound in every Stage E series speaker.
